Our new model - 2050 is designed to fill the need for a true 6.8m serious fishing platform. With all the safety standards and accessories of its bigger brother, the 2050 is the pocket battleship of fishing boats. A full 2.5m on the beam, this is the maximum volume 6.8m fishing platform for New Zealand conditions. Coming standard in Hartop format, this boat offers the benefits of all the developments in hull design and fine tuning of its larger brother. A directional boat in a following sea, this platform gets you to where the fish are and back. A full range of 300kms with its 160 litre underfloor tank means that one base events or overnight tournaments are well covered for. The fully lined cabin is comfortable, warm and dry. There are no compromises on this boat. It is the ultimate 6.8m fishing platform. You have the ingredients to be the ultimate hunter on this boat - what are you waiting for?

Recommended for sealed all-tides boat ramp launch and retrieve.

Hull Only RRP \$43,500
